

Black, Asian and Minority Ethnic
(BAME) Students Representative
candidate:

Anotidaishe Manjanja

Lets make it happen!

Manifesto

Hello, my name is Ano and I want to represent BAME students. The role of BAME representative is an important role however I feel as though this role has been underutilised. I am passionate about equality and fair representation Many BAME students feel detached from HUU and this needs to change, I want to use my skill and experience to help BAME students and improve their representation. I intend to do this by:

Use Social media as a platform where BAME Students can share ideas, troubles and network. I will use this platform as an easy way for students to contact me for whatever reason.

- Increase BAME student involvement within HUU I will do this by holding an event to discuss the benefits of getting involved and also by showing BAME students what's on offer at HUU.

- I will aim to build a multinational committee through which I will be able to understand the concerns of each group within the larger umbrella of BAME as well as working with societies which handle BAME groups.

- I will aim to hold campaigns throughout the year to highlight BAME issues and increase awareness on certain issues.

I have so many more Ideas so let's make it happen!
