

Councillor for Scrutiny candidate
(Activities Zone):

Eleanor Woodhouse

Progress, Integrity, Transparency

Manifesto

I'm standing for this position because I would like to give back to the Union. I have been on the exec of one of the largest societies on campus (WARPS) for a year and a half now, and I feel that this experience has equipped me with an understanding of student needs and the services the Union can provide. My role as secretary of WARPS has given me a keen eye for oversight and detail, and these skills will be easily transferable to this position, enabling me to engage in discussions and present other opinions that may not have initially been considered.

I want to make sure that progress is made and keeps being made with regards to support for societies on campus. I also want to bring view points from every corner of the Union are brought forward to the presidents team, so that there is a fair and balanced view of what students and societies want to see happening.
