

Environment & Ethics Representative
candidate:

Siobhan Pickering

Hi, I'm Sioban and I want to save
the world

Manifesto

Since being little, I have had a passion and love for animals and the environment. Global warming is a real and scary issue that we are facing and it is not getting enough attention. I want to be able to say that I have been a part of the movement to fight global warming. As a vegetarian, I have a deep love for our planet and the animals on it. I believe that single use plastics need to be replaced with reusable alternatives and I want to ensure the uni reduce their plastic use.
