

M.1516-21 Motion to amend SO 5005 to introduce the position of a BAME  
Representative on the LGBT+ Committee

HUU Notes:

1. Currently, the LGBT+ group has a minority of BAME members. We feel that adding a BAME representative would encourage additional BAME members to join, but also make current BAME members able to express the way that their race and LGBT+ identity intersect.

HUU Believes:

1. We want to offer additional support for BAME members of the LGBT+ community who feel that they are in the minority and who feel that issues that affect them are not recognised or raised to the committee. With a BAME representative, there will be a person who identifies as BAME and who also has the relevant understanding of how race affects an LGBT+ person, both in and out of the community.

HUU Resolves:

1. To add the position of a BAME representative to the LGBT+ committee as appended.
