

Student Trustee Candidate:

Anotidaishe Manjanja

Manifesto

My name is Anotidaishe I am a Law student, at the beginning of this academic year I endeavoured to be more involved with HUU and subsequently, I became the secretary of the societies executive committee. This role gave me insight into HUU and gave me the opportunity to make a positive impact on societies. I have gained many important skills, many of which I believe would be useful as a student trustee.

Becoming a student trustee for me would be a wonderful experience for me, beyond the obvious benefits and the transferable skill I will gain, it will allow a see things from a unique perspective. It will also allow me to help students from a privileged position and ensure that students voices are being heard within the board. It would allow me to appreciate the roles and functions of HUU and see all the work that happens behind the scenes to improve our student experience.
