

Trans Representative candidate:

Hannah Burgess

Hannah Burgess for Trans Rep

Manifesto

As trans representative my most important role would be, at least to me, to listen to trans people across the university. I hope to be someone who trans people can talk to and feel like their voice is being heard. As generic as I'm sure that sounds it truly is the only way I can be a true representative and so I want to see that done well. I hope to be available to trans people so they can talk about what troubles them about their university experience so I can put their voice forward in student council meetings and not let our voice be unheard.

When it comes to the trans group I don't wish to change much. I'm sure those who attend currently enjoy the atmosphere we have there. However, I hope to see the group grow in numbers and I want to help it do that, largely through awareness as there is little about the groups I would want to be different.

I am thrilled to have the opportunity to represent you in an official capacity. I have volunteered with an LGBT+ charity in the past so I hope I can bring my skills from there but, most importantly, be a passage for your voices to be heard as best as I can. Thank you very much.
